EDUCATION

University of Illinois at Urbana-Champaign

B.S. in System Engineering | Minor in Business | GPA: 3.83

IL, U.S.

Sep 2024 – Expected May 2028

Singapore American School

High School Diploma

Singapore

Sep 2020 – Jun 2024

PROFESSIONAL EXPERIENCE

N1AC (Angel Investor Collective)

Angel Investor | Partner

Hybrid, U.S.

Feb 2026 – NOW

- Evaluated 300+ early-stage startups through business plan reviews, live pitches, and founder diligence, assessing team, product differentiation, market opportunity, traction, competition, and investment risk.
- Deployed ~\$40K of personal capital across two early-stage investments: Tenda, an AI platform for construction/AEC coordination, and SemiValley, developing advanced liquid-cooling technology for AI data centers.

IVY Capital

VC Analyst Intern

Shanghai, China

Jun 2026 – Jul 2026

- Led a four-person team on a two-month investment study of space data centers, covering economics, energy, cooling, communications, and computing infrastructure; presented findings at the firm's quarterly meeting.
- Sourced and evaluated 30+ startups across space technology, advanced manufacturing, AI-native software, energy, and advanced materials; advanced three to meetings with senior investors and built relationships with 75+ founders, investors, and ecosystem organizers.
- Won the firm's Most Practical AI Award for developing an agent that tracked investor relationships, follow-ups, and unanswered messages across WeChat and Feishu.

PwC

Business Consulting Intern

Hybrid, China

Jun 2026 – Jul 2026

- Analyzed the business model, product portfolio, financial performance, competitive positioning, and risks of a Chinese OTC pharmaceutical company.
- Developed a nationwide expansion strategy using research on regional demand, distributors, chain pharmacies, e-commerce, pricing, competitors, and product positioning; produced supporting market analyses and Excel models for the project team.

Hennecke GmbH

Rotational Intern

Sankt Augustin, Germany

Jul 2025 – Aug 2025

- Rotated across engineering, production, R&D, sales, and ESG, developing a comprehensive understanding of PU processing technologies and business operations.
- Assisted Quality Control and Mixhead teams with precision testing, machining, CNC operations, and circuit assembly.
- Supported projects in predictive maintenance (IoT), modular line expansion, and HPS/HBS workshops, linking technical insights with strategic practices.

LEADERSHIP & INITIATIVES

Azura de Maison

Co-founder

IL, U.S.

Sep 2025 – NOW

- Launched UIUC's first premium online bouquet brand, offering curated floral arrangements to students and the broader Champaign-Urbana community.
- Generated approximately \$2.7K in revenue and \$1K+ in profit during a 30-hour Valentine's Day campaign.
- Maintained a 71% customer-inquiry-to-purchase conversion rate through direct-message sales and collaborations with campus fashion clubs and student brands.

UBS Leadership Excellence and Development Series (LEADS)

Event Host

Hong Kong, China

Jun 2024

- Emceed and coordinated the 2024 UBS LEADS Graduation Ceremony for 300+ executives, regional directors, and students.
- Facilitated discussions with UBS leaders and participants on entrepreneurship, strategy, and business management.

RESEARCH & ENGINEERING PROJECTS

AI Data for Autism Spectrum Disorder Research, University of Illinois at Urbana-Champaign IL, U.S.
Paid Data Analyst Oct 2024 – May 2025

- Analyzed 10,000+ video frames of children's gaze patterns to identify behavioral indicators of ASD.
- Processed large datasets using CVAT, supporting AI model training for ASD severity classification.
- Applied modeling/topography techniques to extract behavioral insights for early detection research.

Computer Network Information Center, Chinese Academy of Sciences (CAS) Beijing, China
Research Intern Jun 2025 – Jul 2025

- Built a relational SQL database linking professors, papers, and institutions; used Python to process survey data for government trend analysis.
- Automated the Annual Report for 107 institutes with Python + HTML/CSS, streamlining HR, usage, and electricity data extraction.
- Developed a Python PDF comparison tool to audit contracts, highlighting changes across versions.

Advanced Molds for Soft Robotic Structures IL, U.S.
Gazzola Lab, University of Illinois Urbana-Champaign | Mentored by Seung Hyun Kim Sep 2024 – May 2025

- Designed and fabricated soft robotic molds for air-pressure-driven actuation.
- Collaborated on optimizing mold designs, improving functionality and control in robotic fingers.
- Explored novel actuator designs for flexibility and dexterity in soft robotics.

SELECTED HONORS

Google Certification, Fundamentals of Project Management 2025
Completed training in project planning, stakeholder management, risk management, and Agile methodologies.

TECHNICAL SKILLS

Programming & Data: Python, SQL, Java, C++, data automation, relational databases

Engineering: SolidWorks, Fusion 360, Arduino, CNC machining, 3D printing, electronics prototyping

Languages: English, Chinese, and Taiwanese

Hobbies: Volleyball, Basketball, Boxing, Watching Spiderman Movies, Wine Tasting
